

# LifeFlex<sup>®</sup>

## Demineralized Cancellous Cubes and Strips

*LifeFlex<sup>®</sup> provides an ideal solution for your bone grafting needs.*

- **Biocompatible:** 100% demineralized cancellous bone
- **Osteoconductive:** Porous structure provides ideal scaffold for new bone formation
- **Osteoinductive Potential:** Demineralization optimizes potential naturally occurring bone growth factors
- **Flexible and Sponge-like:** Allows conformity to a variety of bone voids
- **Absorbent:** Rehydration with blood, saline or bone marrow aspirate (BMA)
- **Safe and Reliable:** Procured and processed following AATB standards and FDA regulations

# LifeFlex<sup>®</sup>

## *Demineralized Cancellous Cubes and Strips*

- Processed using an innovative, patented technology designed to maintain tissue integrity
- LifeLink Tissue Bank is an AATB accredited and FDA registered tissue bank.
- All donors carefully screened using among the most stringent criteria
